

Quantitative Developer Intern (100%)

LMR Partners AG are looking for a (soon-to-be) bachelor graduate or a master student or graduate from the field of mathematics, physics, computer science, and engineering. The position is on-site in our Zürich office. We are looking to convert the internship into a full-time position. The start date is after January 2026, with a flexible duration anywhere between 3 and 6 months.

Role Description

The role is placed within the global Inflation team that is producing high-quality inflation forecasts for the fixed income fund and is trading inflation-linked products across G3 countries. Your work will span across various technical frontiers, including development of new estimation models, devops, and data pipeline management. You will have the opportunity to learn about inflation and broader markets from other traders, risk managers and other quants.

Primary Responsibilities

- Learn, understand, and eventually support our existing inflation forecasting codebase
- Contribute to existing and new model developments
- Assist with on-prem to cloud transition
- Debug, investigate and fix eventual outages of our deployed services
- Interact with data vendors, onboard and evaluate new datasets

Requirements

- Exceptional communication and formal reasoning skills.
- Exceptional understanding of Python programming language and runtime.
- Rudimentary understanding of SQL and data modelling.
- Strong foundations in the topics of linear algebra, time series, control theory, optimization, concurrent computing, machine learning.
- Solid understanding of Git, and familiarity with software development cycle from issue creation, development, merge request, approval, merge and deployment via CI/CD.
- (optional) familiarity with Bloomberg, AWS Services and Nomad

About Us

LMR Partners is a multi-national investment management company headquartered in London. LMR's investment teams are trading liquid, market-neutral trading strategies employing both systematic and discretionary approaches. LMR looks to find relative-value investment opportunities within equity, fixed income, credit, volatility, commodities and event-driven markets, across a variety of time horizons. LMR has offices in London, Zurich, Hong Kong, New York, Dubai, Glasgow, and Dublin.

The Zurich office offers various perks, including a fully stocked kitchen with breakfast foods and fruits, entertainment centre, sponsored company events and a weekly gym session with a trainer.

Address and contact

LMR Partners AG, Glärnischstrasse 8, 8002 Zürich.
